		727 N	TRANSPARENT RED OXIDE	PR 101	1240	27

Values are to be considered as nominal and should be treated as a guideline. We suggest to perform always a preliminary compatibility test. The producer reserves the right to modify at any time these parameters, without giving advance notice, in order to respect the tolerance of colorimetric standards. The colours here represented are by way of example, in terms of colour strength and shade. Colours might differ from real product depending on the printer and video installed.
